SakshiShingala

SakshiShingala26

Rajkot, Gujrat

## CARRIER OBJECTIVE

Motivated and detail-oriented Backend Developer specializing in Python and Django REST Framework. Proven ability to design scalable, secure APIs and optimize database systems. Passionate about building robust applications and contributing to high-impact tech solutions in dynamic environments.

## PROFESSIONAL EXPERIENCE

November 2024 – present

Rajkot

### Maxah SSPL

Backend Developer

- Developed scalable backend solutions using Python and Django REST Framework.
- Built secure RESTful APIs to enable seamless frontend-backend integration.
- Optimized MySQL databases through query tuning, indexing, and migration strategies.
- Collaborated with frontend teams to deliver full-stack features.

May 2024 – July 2024

Rajkot

### TechKhedut

Python Developer Intern

- Completed a 2-month internship focused on core Python programming.
- Applied theoretical concepts through practical tasks and real-world applications.
- Gained hands-on experience in scripting, data handling, and debugging.

## CERTIFICATES

### Trainee Python Developer (Internship)

at TechKhedut ,Rajkot

### Python Pandas (Basics)

Great Learning

### Python for Beginners

Udemy

### Python (Basic)

Hacker Rank

### Problem Solving (Intermediate)

Hacker Rank

### CSS (Basic)

Hacker Rank

## TECH SKILLS

**Programming:** Python, RESTful APIs, HTML, CSS, SQL

**Frameworks & Libraries:** Django, Django REST Framework, Bootstrap

**Databases:** MySQL, SQL Server

## PROFESSIONAL SKILLS

---

- Fast Learner & Adaptive
- Strong Attention to Detail
- Problem-Solving Mindset
- Team Collaboration

## PROJECTS

---

### Cafe Management

Python | Console App

Built a dynamic ordering system for cafe operations, featuring menu display, input validation, and bill generation.

### Random Password Generator

Python, Random module

Scripted a password generator supporting customizable length and character types for enhanced security.

### Time-Based Greetings Message

Python, Time module

Developed a user-friendly greeting tool that displays time-appropriate messages.

### Task Management Console App

Python

Created a CLI-based app to add, update, delete, and view daily tasks.

## EDUCATION

---

2023 – 2025

Rajkot

**Master of Computer Applications (SPI : 7.26)**

*Darshan University*

2020 – 2023

Rajkot

**Bachelor of Computer Application (73%)**

*Sarvodaya College (Saurashtra University)*

2018 – 2020

Rajkot

**HSC (65%)**

*Sarvodaya School*

2016 – 2018

Rajkot

**SSC (71%)**

*Sarvodaya School*
